COLORS
for
SMALL
ROOMS

**WHO'S WHO, WHAT'S WHAT,
and HOW TO ARRANGE IT**

“I like to paint a small room a saturated color, which makes it feel grand and gives you the illusion that it’s bigger. This is the deep, rich brown of French-roasted coffee beans. It would look very dramatic in high-gloss on the walls. The whole room would shimmer. Paint the moldings the same color, but in a different finish, like eggshell. No white moldings—that would chop up the room and ruin the effect.”
